INDEX TO VOL. V.

Albany, Unusual Celestial Phenomena at, 363
Alcohol in the Army 293
Aleutian Isles, Contribution to the History of 193
Alexander, W. W.—Astronomical Notes, 27, 73, 154, 240, 278, 359, 426, 496, 557 638, 683, 752.
Alexander, W. W.—Comets 236
Alexandrian Library, Who Destroyed the 626
Alphabet, The, in Prehistoric America . 372
Altitude upon Character, The Influence of 15
American Association, Proceedings of . . 303
An Apology for Nature 610
Ancestor, Our Possible Lemuroid . . . 604
Ancient Pueblo Work-shop 338
Anemometer, Electic Self-registering . . 503
Anthropology 201, 333, 599
Archæan Rocks of Missouri 735
Archæological Researches in Nicaraugua 201
Archæological Researches in Mexico . 534
Archæological Researches along the Missouri River 529
Archæology . 90, 132, 371, 405, 480, 529 661
Arctic Colonization and Exploration in 1881 210
Arctic Phenomena 475
Arid Climate of the West, Cause of the . 432
Arizona Coal 44
Art of Founding in Copper, Brass and Bronze 409, 482
Arts and Science of Ancient Rome . . . 778
Asbestos, Increasing Use of 281
Asphalt, Origin and Uses of 331
Assassins, Insanity defense of 554
Astronomical Events, Coming 65
Astronomical Intelligence, Cabling of . . 156
Astronomical Notes, 27, 65, 154, 240, 278, 426 496, 557, 638, 683, 752.
Astronomy, 27, 65, 154, 236, 278, 359, 426 496, 557, 631, 683, 742.
Auroras, Remarkable 429

Ballard, Julia P.—Insect Transformation, 31
Balloons, Use of in Exploration 557
Barometer, The Passing of Low . . . 102
Berthoud, E. L.—Martin Behaim's Globe. 471
Berthoud, E. L.—The Ice Problem in Colorado 5
Berthoud, E. L.—The Age of the American Horse 414
Berthoud, E. L.—Explorations in Montana and Idaho 587
Biology 143
Biology, a Study in 264
Black Races of Oceanica 60
Blair, R. A., Continuous Images of Lightning 635
Blood Stains, Diagnosis of 378
Book Notices, 121, 182, 250, 320, 380, 441 509, 570, 650, 714, 769.
Botany 24, 207
Bowker, Dr. S. D.—The Exactness of the Science of Medicine 764
Brain Growth and Civilization 759
Brains and Intelligence Compared . . . 581
Broadhead, Prof. G. C.—Fort Orleans, Where Was It? 22
Broadhead, Prof. G. C.,—Sniabar . . . 23
Broadhead, Prof. G. C.—The Carboniferous Rocks of Southeast Kansas . . . 273
Broadhead, Prof. G C.—The Marble of Southeast Missouri 523
Broadhead, Prof. G. C.—The Chalk Beds of Wa-Keeney, Kas 616
Broadhead, Prof. G. C.—Missouri Historical Notes 629
Broadhead, Prof. G. C.—Archæan Rocks of Missouri 735
Brock, F. B.—Recent Improvements in the Mechanic Arts 772
Bronze, Art of Founding in Brass, Copper and 409, 482
Browne, A. W.—The Winds that bring Our Rains 503

Canadian Academy of Art 625
Carbons, the Song of the 517
Case, Theo. S.—Common Sense Sanitation 147
Case, Theo. S.—Storms of June 9 to 12, 1881 158
Case, Theo. S.—The Kansas Rolling Mill Company 185

8001 .516 v.5 c.7749

Case, Theo. S —The Improvement of the Mississippi River 705
Center of Population 186
Chalk Beds of Wa-Keeney, Kansas . . . 616
Character, the Influence of Altitude upon 15
Chemical and Dynamical Geology . . . 75
Chemical Paradoxes 342
Chemistry 75, 152, 309, 340, 391
Chert Rocks of Sub-carboniferous Kansas, 669
Chrysalis, Birth of a 710
Coal of Arizona 44
Coal, Formation of 676
Coal, Value of Annual Production . . . 738
Cold Air Machines 295
Coleman, W. E.—Who Destroyed the Alexandrian Library? 626
Colorado, the Ice Problem in 5
Colorado, Scientists of 108
Colorado, San Juan Region of 42
Color Blindness and Color Sense 377
Comets 235
Comets, Composition, Purpose and Effect of 745
Comets of 1881 . . . . . 238, 239, 281
Comets, Remarkable 189
Common Sense Sanitation 147
Compass Surveying 399
Conchology 526, 681
Consumption, Relation of Foul Air to . 295
Copper Implements, Hammered or Moulded? 490
Coral Life and Growth 623
Correspondence. 47, 96, 204, 300, 347, 544 607, 739.
Corwin, Cruise of the, in Behring Sea, 203, 476
Creational Progress 364
Curious Experiments in Heat 61

Dark Day in Canada 108
Darwin on Movements in Plants . . . 24
Dawson, Wm.—The Saros and Total Eclipse of 1806 683
Dead Cities of New Mexico 480
Diagnosis of Blood Stains 378
Diatoms 418
Dietetics, Instinct as a Guide in 150
Diphtheria, Prevention of 119
Diphtheria, Salt as a Prophylactic in . . 508
Disease, Gymnastics as a Cure of 60
Discoveries by Accident 125
Discovery of the American Continent . . 630
Double Stars 696

Earthquakes of 1881 576
Eccles, D.—An Apology for Nature. . . 610
Editorial Notes . 62, 128, 191, 256, 323, 389 453, 519, 583, 652, 717, 780.
Edwards, John, Ode to the Mound Graves. 371
Electricity in Surgery 61
Electricity, Storage of 299
Electricity, Future of 385
Electric Light, The Risks of the 575
Electric Light, Varieties of the 777
Electric Self-Registering Anemometer . . 503
Engineering, Geological Action *vs* . . . 17
Engineering and Mining . 175, 400, 542, 605 705.
Engineering Projects, Some Great . . . 542
Entomology 171, 536
Ethnology 193
Europe Before the Arrival of Man . . . 726
Exactness of the Science of Medicine . . 764
Exploration of Wrangel Land 474
Exploration by Means of Balloons . . . 557
Exploration in Montana and Idaho . . . 587
Exploration of Zambesi 678

Failyer, Prof. G. H.—Atmospheric Ozone. 152
Fluorine 396
Fibre, A New 387
Fire-Proof Building 774
Floating Stones 528
Flowers, A Hint for Arranging 388
Forestry Work of the 10th Census . . 451
Fort Orleans, Where was It? 22
Fort Orleans on the Missouri 139
Fossil Flora of the Dakota Group 243
Fossil Forests of Yellowstone Park . . . 373
Friendly Insects 171

Galileo and Current Myths 560
Garden of the Gods 580
Geography . 210, 259, 421, 471, 555, 587, 677
Geological Chart 138
Geological Notes on the Central Branch U. P. R. R. 129
Geological Action *vs.* Engineering . . . 17
Geology . 1, 129, 243, 273, 325, 416, 491, 523 616, 669, 735.
Glass Spinning and Weaving 123
Glass and Cements 319
Glass as a Building Material 578
Gold, The Genesis and Distribution of 617
Gravel Beds, The Burlington 325
Gravel Beds, The Burlington, Prof. Schaeffer Upon 492
Gymnastics as a Cure of Disease 60

Haworth, Erasmus, Joplin City White Lead Works 391
Haworth, Erasmus—The Chert Rocks of Sub-Carboniferous Kansas 669
Hay-Fever, Treatment of 291
Heat, Curious Experiments in 61
Heath, Dr. E. R.—Discoveries in South America 259
Heath, Dr. E. R.—Tables of Meteorological Observations in South America . . 276
Hickman, E. A.—Latitude and Longitude of Kan as City 473
Historical Notes . 19, 110, 139, 286, 626, 655
Horse, The Age of the American 414
Horse, The Origin and Development of the Existing 719
How Material Things Exist 614
Hudson, Mrs. M. W.—Western Artists . 572

Hygienic Condition of Coal Mines . . 508

Ice Problem in Colorado, The 5
Idealism of Berkeley, Thoughts upon the. 468
Illnesses, Origin of Some of our 35
Improvements, Recent, in the Mechanic Arts. 772
Incidents of Early Travels in Missouri. . 19
Industries of Norway and Sweden . . 448
Indian Summer 452
Influence of Altitude upon Character . . 15
Insane, Responsibility of the 552
Insanity, The Defense of State Assassins on the Ground of 554
Insect Transformation 31
Insects, New, Injurious to Vegetation . . 713
Interesting Facts concerning the Sun . . 28
Instinct as a Guide in Dietetics 150
Invalids, Cookery for 292
Iron-Sand 282
Iron-Worker, The Negro as an 338
Items from the Periodicals . 64, 129, 192, 257 324, 390, 455, 521, 586, 654, 719.
Isthmian Ship-Railway 400

Jeannette, The Lost 425
Jeannette, The Fate of the 476
Jeannette, Probabilities 555
Jeannette, The Lost 591
Japanese Lacquer 387
Jones, John P.—Incidents of Early Travel in Missouri 19
Jones, John P.—Early Notices of Missouri River and Indians 110, 286, 655
